# **MATH REBOOT CAMP**

## **GET READY FOR SCHOOL!**

DACC knows how hard it is for kids or young adults to start back into the school year after a fun summer off from thinking! We want to reboot kids' math brains and get them ready to succeed in their new grade by covering math facts and math strategies in a fun, "It is still summer" environment! Taught by Isaac Segura and a local teacher. Only 10 spots per camp.
