

Dyslexia Toolkit for Tutors and Parents with Yvonna Graham, M.Ed.

Duration: Two classes on April 5 and 7 at the Durango Academic Coaching Center, 3750 Main Ave Suite 5

Cost: \$60

Description: This course explains and demonstrates the first seven tools in *Dyslexia Tool Kit for Tutors and Parents: What to do when phonics isn't enough*. Class participants will take away usable techniques that are fun for the student and easy for the parent or teacher to implement. Best of all — they actually work!

The tools are derived from the groundbreaking research presented in three books:
The Dyslexic Advantage: Unlocking the hidden potential of the dyslexic brain; by Brock L. Eide, M.D., and Fernette F. Eide, M.D.

The Reading Remedy: Six Essential skills that will turn your child into a reader, by Marion Blank, Ph.D.

Overcoming Dyslexia: A new and complete science-based program for reading problems at any level, by Sally Shaywitz, M.D.

Drawing on these works and adding insights from many others, the authors of *Dyslexia Tool Kit* crystallized the research into easy to use techniques, which can be used in combination or one at a time.

These methods differ dramatically from phonemic awareness based programs such as Orton-Gillingham, Sounds in Syllables, Linda Mood Bell, etc., so take this class if you are interested in a different approach, using the latest research.
